CORE SKILLS

- AI content tools: ChatGPT, HeyGen
- Video content: scriptwriting, instructional content, short-form structure
- Editing workflow: basic cuts, captions, pacing and template-based production
- Content quality: proofreading, consistency checks and revisions
- Digital tools: Windows, macOS, Microsoft Office
- Strengths: detail-oriented, proactive, quick learner and teamwork

EDUCATION

Bachelor of Information Technology
Phenikaa University
2021 - Present
Degree Classification: Good

LANGUAGES

Vietnamese: Native
English: Working proficiency

PROFESSIONAL PROFILE

Entry-level candidate for video editing with hands-on experience creating customer-facing video scripts and software guides using ChatGPT and HeyGen. Able to turn technical workflows into clear, concise content, follow existing templates, and revise work carefully based on feedback. Seeking a flexible CTV Video Editor role focused on short-form mobile app and game content.

RELEVANT EXPERIENCE

IT Support 03/2026 - Present

Bell System24 VN

- Create structured video scripts and step-by-step software guides for customers using ChatGPT and HeyGen.
- Convert technical workflows into concise, easy-to-follow training content while maintaining information accuracy.
- Review and revise wording, sequence and supporting instructions based on customer needs and internal feedback.
- Analyze software issues and coordinate with the engineering team to verify technical details used in customer communications.

Front-end Developer Intern 01/2025 - 03/2025

PhenikaaX

- Converted Figma designs into ReactJS interfaces with close attention to layout, visual consistency and usability.
- Tested interfaces, identified display issues and refined details across different browsers.

IT Support Technician 09/2025 - 12/2025

Be.smart

- Guided customers through software setup and basic usage in clear, easy-to-understand language.
- Worked directly with customers, responded to changing needs and completed assigned tasks accurately.

SELECTED CONTENT WORK

AI-Assisted Software Training Videos 2026

- Developed and refined English narration scripts for product tutorials produced with HeyGen.
- Shortened long-form training material into focused video scripts while preserving key workflow instructions.
- Improved transitions and speaking flow so the narration sounded natural instead of reading directly from slides.

Working style: Comfortable learning new tools, following sample-based workflows, handling feedback and completing detail-oriented tasks independently.
